	0.9135	0.5127	CatBoost Ranker
	0.9016	0.4972	XGBoost Ranker

 Mentee Model	HitRate@5	NDCG@5	Model
	0.9650	0.5665	LightGBM LambdaRank
	0.9352	0.5401	CatBoost Ranker
	0.9223	0.5256	XGBoost Ranker

The screenshot displays the Mentora web application interface. The browser window shows the URL `localhost:5173/community`. The interface includes a sidebar on the left with navigation links: Homepage, Explore, Messages, Mento AI, Community (selected), Applications, My Programs, and My Roadmaps. The main content area features a search bar and a feed of community posts. Each post includes a user profile picture, name, and role (e.g., Brand Identity Creators), followed by the post content and engagement metrics (likes, comments, shares). On the right side, there are sections for 'Joined Communities' (Digital Creators Community, Brand Identity Creators, UI Design Collective) and 'Recommended Communities' (Interaction Designers, Human Centered Design, Design Systems Forum). A 'Create Program' button is visible in the top right, and a '+ Create Community' button is at the bottom right.
